

Established in 1963 Germaine De Capuccini is now available in over 60 countries worldwide and is founded on serving the professional therapist with products, which are revolutionary, innovative and effective.

Germaine De Capuccini is many things; it covers a wide range of treatment products for the Face & Body, whilst also incorporating Spa Marine and Equilibrium to treat the Mind, Body and Soul. A full range of beautiful cosmetics are also available, with all products within the range being treatment based, containing much needed vitamins for the skin, hydrating properties and SPF's.

Beauty in its place

Germaine de Capuccini uses advanced biotechnology to refine plant extracts and vitamin-based ingredients.

Our team of highly trained therapists will draw on a range of complementary Germaine de Capuccini programmes to develop tailor-made treatments to suit each client.
